

KABAL OF PAIN'S WAY DARK ELДАР ARMY LIST

In the depths of the Dark City, in the dark vacuums of the gulf between the stars and the recesses of the Webway, the Lords of the Dark Kin attend to their courts. Flanked by the insidious Incubi, the Lords attend their duties. The delicacy of choirs of tortured souls, the feasting upon innumerable slaves, the slaughter of populations—their undertaking is tireless.

Forces

The Kabal of Pain's Way Dark Eldar Army List uses the datasheets from the Dark Eldar Forces section.

Using The Army List

Kabal of Pain's Way Dark Eldar formations come in two types: *kabals* and *partisans*. Each kabal you include in the army allows you to field any two partisan formations. Although you can only take a partisans formation if you first take a kabal, they are treated as separate independent formations during a battle and do not have to move around together.

In addition, formations may be given upgrades. Which upgrades a formation may be given are listed in the "Upgrades" column. Upgrades are added to the formation and are not a separate formation. Each upgrade that is taken adds to the cost of the formation, as shown on the upgrade chart. Note that you may never exceed more than eight infantry units in a formation.

Dark Eldar armies may be supported by Dark Eldar Aircraft, Spacecraft and Other Horror formations. A maximum of up to a third of the points available to the army may be spent on these formations.

Finally, Dark Eldar Individuals includes special characters, formations and objective options. Each individual may only be taken once by the army. The rules for using each individual are listed in the "Notes" column.

Special Rules

The *Hit & Run Tactics* rule (see *Hit & Run Tactics*) and *Fleet of Foot* rule (see *Fleet of Foot*) apply to all Dark Eldar formations. Additionally, certain units and weapons have special abilities described in *Dark Eldar Technology* (see *Dark Eldar Technology*).

SPECIAL RULE

Dark Eldar Transport

Any Dark Eldar formation that includes "plus transport" may choose from the Dark Eldar Transport section. You may only take as many transport units as are required to carry the entire formation, including upgrades, with no extra spaces if possible. You may select no transport at all if desired.

The Slavebringer is an independent war engine that must be assigned to a specific Dark Eldar formation during army creation.

SPECIAL RULE

Kabal of Pain's Way Epic Tournament Special Rules

Dark Eldar forces are raiders by nature and rarely have an interest in holding ground. The swiftness of their vehicles and the deadly nature of their attacks are revealed quickly to their victims who watch the Dark Eldar disappear as quickly as they came. To represent these tactics, the Dark Eldar are forbidden from garrisoning any formations in the Epic tournament game scenario.

Corsair Class Escorts form a single squadron and act in the same manner as a single spacecraft. They may combine their Orbital Bombardments into a single strike, or fire separately (templates may not overlap).

SPECIAL RULE*Kashnarak*¹

The Kashnarak is a massive, enraged animal that squeezes through a Webway portal and is set loose on the battlefield at the beginning of any turn the Dark Eldar desire (before strategy roll) and acts as a “third” player. It will always attempt a barging, close combat assault on the closest formation(s), even Dark Eldar formations! If unable to reach base-to-base contact, the beast will march toward the closest formation, to its maximum movement. If it reaches an enemy zone of control, the beast stops its move. Consolidation moves are also toward the closest formation. From then on, it is the first activation of subsequent turns, before the strategy roll or teleport, following the model above. A broken Kashnarak will remain in place on the board and will not attempt a move until it rallies.

The exceptions are when in the presence of a Wych unit. If within 15cm of a Wych unit at the beginning of the Kashnarak activation (see above), its assault or move may be directed by the Dark Eldar player. This includes a Wych unit within 15cm of the Kashnarak’s Webway portal. In addition, the Kashnarak will never move toward or assault a Wych formation; instead it will choose the next closest formation. These directed actions still take place prior to the strategy roll for the turn.

Regardless of its actions, the Kashnarak is not considered part of the Dark Eldar force for the purposes of placing formations, holding objectives, calculating crossfire, or determining victory conditions and tie-breaker calculations. It neither counts toward Dark Eldar activations nor does it count toward Webway Portal use. It does not benefit from Hit & Run tactics. The Kashnarak can contest objectives for both the Dark Eldar (except when within 15cm of a Wych unit) and their opponents.

1. Kashnarak

Q: Does the Kashnarak need to pass an action test?

A: Yes, it has an initiative rating of 2+.

Q: What happens if the Kashnarak fails an action test?

A: It carries out a hold action and moves as described.

Q: Does the Kashnarak avoid dangerous terrain?

A: Only if its move is being directed by a Dark Eldar player.

Q: Does the Kashnarak avoid impassable terrain?

A: Yes, it takes the shortest path around any impassable terrain. If there are multiple shortest paths around the terrain then the player whose formation it is moving towards may choose which path it takes.

Q: Does the Kashnarak avoid overwatch fire?

A: Only if its move is being directed by a Dark Eldar player.

Q: Can the Kashnarak declare formations as being intermingled?

A: Only if its move is being directed by a Dark Eldar player. Otherwise, the formations are only considered intermingled if the Kashnarak moves into base contact with each of them.

Q: Can a Wych unit that is part of a broken formation direct the Kashnarak?

A: Yes.

SPECIAL RULE

Hit & Run Tactics

The Dark Eldar are piratical raiders from the depths of the Dark City and the treacherous expanses of space. Due to their limited population, losses simply cannot be sustained at length. Because of this they have developed tactics that when combined with their highly advanced technology allows them to attack the enemy and then quickly retire in order to avoid any return fire. This ability is reflected by the following special rules, which apply to all formations in a Dark Eldar army:

Dark Eldar formations that take advance or double actions may choose to shoot either before or after each move. However, they may still only shoot once during the action. For example, a Dark Eldar formation taking an advance action could shoot and then move or move and then shoot, while a formation taking a double action could shoot and move twice, move twice and then shoot, or move then shoot and then move again.

In addition, a Dark Eldar formation that wins an assault is allowed to move up to their full movement when they consolidate, rather than being limited to a move of 5cm as would normally be the case.

SPECIAL RULE

Fleet of Foot

With eons in which to practice pirating techniques upon the mon-keigh of the galaxy, the Dark Kin have honed the skill of squeezing every bit of advantage from a lightning style attack. To represent this, Dark Eldar formations do not incur the typical penalties that other races would after taking a March action. Dark Eldar formations that have marched may lend support in assaults, help claim a crossfire bonus, and even fire flak shots.

SPECIAL RULE

Dark Eldar Technology

Webway Portals: These smallish portals are used by the Dark Eldar as much as the Eldar. Allowing safe travel through the Warp, each Webway portal included in the army allows the Dark Eldar player to keep up to three formations back in Commorragh. Any of these reserve formations may enter play via a Webway portal by taking an action that allows them to move, then measuring its first move from the portal on the tabletop. No more than one formation may travel through a single portal each turn. Wraithgate use is limited to formations made up exclusively of infantry, light vehicles, and armored vehicles with the walker ability (The feared Kashnarak is the exception to the rule).

Shadowfields: Dark Eldar war engines are shrouded in light absorbing energy fields which serve as a powerful defence against the massed guns of their cornered prey. Each shadowfield will absorb one successful hit before going down; no blast markers are caused for this hit (this includes firefight but not close combat). A war engine with at least one shadowfield remaining automatically regains an additional field at the end of the rally phase of each turn. If the shadowfields are completely knocked out, they will not return for the remainder of the game. The war engine can never have more shadowfields than originally allotted. In addition an active Shadowfield always counts as being in cover (apply -1 cover modifier). This has no effect on their engagements, however, either in close combat or firefight.
